Abdullah Alani

Marketing Team Leader · Digital & Performance Marketing

Amman, Jordan | +962 79 621 0103 | Alani.abdullah@outlook.com | Nationality: Turkish | Date of birth: 16.06.1998

PROFILE

Marketing team leader with five years of remote experience building the online presence of multiple companies in Canada, covering paid social and search advertising, social media, content and email marketing. A mechatronics engineering background brings an analytical, data-driven approach to campaigns. Has led a team of 12, is comfortable working across cultures in English, Arabic and German, and wants to bring brand-building and performance-marketing skills to a fashion and clothing brand.

WORK EXPERIENCE

Team Leader – Marketing 08/2021 – 10/2026

iBestDesign · Ottawa, Canada (remote)

- Increased lead generation by **60% through Meta** and **42% through Google** by analysing campaign data, with conversion rates above **15% of total visitors** across several client firms.
- Ran paid ad campaigns that delivered **about 50 conversions per month** in limited markets, at a **300% return on ad spend (ROAS)**.
- Supervised ad preparation, setup and publishing across platforms, including posts, videos and user-generated content (UGC).
- Ran email marketing campaigns optimised to **75% open rates** and **15% conversion rates**.
- Grew several firms' social media presence and brand identity, steadily growing their follower base organically over four months.
- Led a **12-person team** running an AI SaaS website tool end to end, covering written content, tutorial videos, feature ideas and ongoing improvements.
- Held calls with stakeholders to understand each client's business and industry, then turned these insights into marketing plans.
- Analysed market trends and customer preferences to provide data-backed insights that sped up development and shaped marketing strategy.
- Streamlined team workflows and project management processes to make the execution of marketing initiatives more efficient.
- Optimised website content by combining original copywriting with AI tools.
